

IMAGE AND SOUND STUDIOS

In the heart of Lisboim we have a 70m2 image studio and two sound studios (stereo and surround)

Our image studio is 70 m2 and is perfectly isolated in terms of sound. It has a green cyclorama, but can be painted with another color of your choice quickly. The studio has a gutter system for white, or black curtain, for the remaining projects. In addition, there is a production support kitchen, a catering area, dressing room, wardrobe and make-up. Digital

Azul is at the forefront of interactive media as a provider of audio services to the advertising industry and the broadcast industry. We have 2 sound studios fully equipped for your audio production, be it dubbing, voiceover or song. One of the studios is 5.1 for projects that require recording with this feature.
