

# REMOTE PRODUCTION

Stream your live video with **ultra-low latency** and **broadcast-quality** from any location, to any device, and for audiences of any size.

Our **remote production solutions** enable **4K and HD** video capture, switching, and transmission with **IP communication, remote intercom, timecode synchronization, and distribution via NDI, SRT, or RTMP.**

We utilize **fiber optic networks, 4G/5G, and satellite** to ensure a stable, high-quality broadcast, eliminating geographical barriers and reducing operational costs.

Ideal for **sports events, conferences, eSports, concerts, and multi-camera productions, remote production** allows for decentralized operation, with directors, camera operators, and technicians working from different locations while maintaining seamless coordination and broadcast excellence.

**Take your production to the next level with Digital Azul.** Contact us to configure the best solution for your event.
